# NO MORE DEATHS.

Health Board Reports Only Suspected Cases Under Observation.

Officials Profess No Fear that the Scourge Will Become Epidemic.

# THE SOURCES OF INFECTION.

City Hospitals Ready to Care for All Cholera Patients.

No additional cases of cholers have been reported to-day by the Board of Resith, although it is admitted that several persons are under observation.

The bouses in which the deaths reported gesterday occurred are all kept under out of the conference room, and a few minutes sisters were up. close quarantine, and vigorous measures later the 10 o'clock bulletin announcing "No They all dressed hurriedly and sought new cases" was hung up. to prevent the spread of the scourge in this city are being Idopted.

Commissioner Gilroy has closed the p blic baths.

#### Health Board's Bulletin. New York, Sept. 15. 10 A. M.

Official:
During the past forty-eight hours no new or suspected cases of cholera have been reported to this Department.
The suspected cases of Charlatte Bock, 1765 Second avenue, and Peter Callahan, 318 East Forty-sevenifi affect, heretofore noticed, are still under investigation.
By order of the Board of Health.
CHARLES G. WILSON, President.
ÉMMONS CLARK, Secretary.

### NO HORE CASES REPORTED.

President Wilson Will Not Make Public There is great activity around Police Headquarters and the offices of the Board of Health | for distribution this afternoon.

The Health Department was opened much eartier than usual this morning. The first official to arrive was President Wilson, tired-looking and worried. The fact Wilson was present and the probability that he had intelligence of more cases of cholera soon became known at 1.15 o'clock this afternoon, and was done. throughout the building and the head of the driven to the office of Dr. Roberts at the Bulesth branch of the municipal government reau of Contagious Diseases. was soon surrounded by a group of reporters.

morning, gentlemen," said President Wilson. Notwithstanding the fact that the newspapers all agree in the statement that there from a choicea patient were placed in the amhave been five deaths from Asiatic cholera in bulance, and it drove away hastily in a west- tory being badly cracked and liable to fall at this city, there have only been four of which we are absolutely positive. They are the es of McAvoy, the Wiegmanu's and the child Minnie Levinger. In these cases the bacteriological examinations prove conclusively that they died of Asiatic cholera.

" In the cases of Charlotte Beck and Peter Callahan they are merely suspects, now undergoing biological examinations. There is nothing absolutely certain about these es, though it is a fair assumption that they both died from cholera. When the rewithout delay."

President Wilson, although he did not retire before 2 o'clock this morning, was out by d set apart in the basement, and the floor of o'clock and paid a visit to the Reception Hostinis room has been made water-tight with it is supposed the firm East Sixteenth street. He declared been treated in the same way, so that no disthat he was unable to tell how many cases rere suspects, and said that he did not intend to publish every suspected case, because he did not deem it good policy to do so. Only Positive Cases to Be Made Known.

"We do not care to throw the city into a siso a physician of St. Vincent's, has given state of panic," he said, " and for this reason full instructions as to the course to be puronly positive cases of cholera will be made sued in case calls are received for cholera We are doing everything in our cases. The cases will be received only when power towards blocking the progress of the the condition of the patient imperatively delisease. Our inspectors are busy to-day mands it. In other cases the Health Board terreting out the antecedents of the an- will be notified and one of the special ambuounced cases. We are using every means and lances attached to each precinct sent to take suggestion in tracing out the desired infor- charge of the patient. mation, and the results of our labors will be made known at the proper time. The houses in which the persons died are being carefully watched, and it is my intention to have a policeman at each house to carry out our plans event of a call for one the Health and Police of isolation. There will be no limit to disin-

Mr. Wilson insisted that so far there had been no secondary cases in the houses where the intected persons died. When questioned tugo Beck, the husband of Mrs. Beck, one of

The biological examinations in Mrs. Beck's case, not yet finished, will alone enable us to tell whether Mr. Beck had cholers. If it is found that Mrs. Beck positively died from Asiatic cholers by any of them as yet.

At Bellevic, Warden had a slight attack of the same disease. As we understand it Beck was attacked with buildings which could be used if necessary for has 39,100; Smalley (Dem.), 19,576; Allen . If he did have cholers it must have been a mild form."

Referring to the source of the infection, Mr. Wilson said that the Department was busy up that end of the case. He thought much of the suggestion made that in Beck's

case the infection came through his work.

Beck was employed by a Fulton Market butcher, who supplied the Hamburg ships

niture Factories Damaged.

A fire which broke out a few minutes after o'clock this morning totally destroyed George Meyer's carriage factory, in the rear of 225 and 227 East Thirty-sixth street, and the flames communicated to two furniture factories on Thirty-seventh street, badly damaging them.

The loss on stock and buildings is estimated.

at \$100,000, partly covered by insurance.
The burned carriage factory was a six. Nine Immigrant-Carrying Ships story brick building 00x00 feet. The only entrance to it was through an alley leading from 225 and 227 East Thirty-sixth street. Charles Baker, night watchman for Cook & Ranley's iron foundry at 212-220 East Thirty-seventh street, first saw the flames in

tue engine-room of the carriage factory and turned in an alarm. Owing to the inflammable material in the building the fire spread rapidly and by the

time the firemen arrived the flames were exting their way to the upper stories. A third alarm was struck four minutes after the first. The difficulty of access to the "In the matter of the time occupied in de-termining McAvoy's death," Mr. Wilson men doubly hard.

added, "the physicians had to make several. The alley cuts in between the building cultures before satisfactory results could be used by the Sisters of Charity's St. Gabriel's obtained. The autopsy at first revealed Academy, a branch of the school connected nothing. Then the first and second cultures with St. Gabriel's Church. The buildings are developed similar results, and it was only on connected by a bridge extending across the the fourth culture that the Asiatic cholera alley.

About thirty Sisters of Charity, in charge "The cultures in the other cases developed evidences of Asiatic cholera much quicker."
At 10 o'clock Dr. Bryant arrived and held a conference with President Wilson. Dr. who was passing the Academy on his way Cyrus Edson and Dr. Roberts, Chief of the Bureau of Contagious Diseases, derted in and some response and was assured that all the
